CBS Interactive Chooses Logitek

March 18, 2011, Houston, TX – CBS Interactive in San Francisco, California has ordered a Logitek Remora-10 console to expand an existing Logitek Networked Console System.

The space-saving **Remora** console offers the most popular features of other Logitek control surfaces in a compact design that can be set on a table and then moved out of the way when not needed. The Remora is available in four different configurations from 4 to 22 faders, and may be used in both traditional and split configurations. Meters are built into the raised display panels; Logitek's vScreen software application is also available which allows the user to populate a VGA screen with meter banks, router controls and other information.

About Logitek

Founded in 1979, Logitek Electronic Systems, Inc. designs and manufactures digital audio console, routing, switching and metering products for the broadcast and professional audio industries. Logitek Networked Console Systems are used in radio and television facilities worldwide. Full product information is available at the company's website: www.logitekaudio.com.
